

Multiplication & Division

Times Tables

Times tables are important to the children they will be tested in Year 4 on their times tables knowledge.

The test will be an online test for the children to complete so it is essential that the children get used to answering questions electronically.

The children have all been sent their TT Rockstars passwords so they can practise their times tables online.

Please note you do not have to record anything as I can see when children have used these sites and can monitor them online.

Thanks
