

Maths challenge :Have a go at our maths challenges Don't forget to bring in your fantastic learning.

Learn your 2x, 3x, 4x, 5x 10x times tables facts off by heart!

- Use tt rockstars
- Purple mash
- Make some flash cards
- Make a game
- Chant your facts
- Get a friend or family member to set you a quiz
- Design a poster
- Put the tricky ones to a tune

Interview a family member about all the ways they use maths in their jobs.

Investigate how maths is used in the home!

Learn your measures facts: eg

How many seconds in a minute, hours in a day, weeks in a year?

How many metres in a kilometre?

Apply your measuring knowledge practically. You could:

- Follow a recipe
- read timetables
- set yourself a challenge to estimate how long 1 minute feels and compare it to real time.
- Practise reading the time
- Work out how long until key events in the year.
