

Pupil Voice 9th January 2018

Internet safety

This week we have been discussing internet safety. What we are allowed to do and what we are not allowed to do on the internet.

Here are some of the key things you should remember on the internet:

- Don't talk to strangers
- Do not post or send any personal information
- Do not post any inappropriate pictures
- Make sure only people you know can see your posts

- Do not use inappropriate language over the internet

Age restrictions are important, do not ignore them.

Here are some apps that have age restrictions

- Instagram 13
- Snapchat 13
- Facebook 13
- Pinterest 13
- Youtube 12

Some of the apps shown in the list above can be used by younger users as long as they have parents permission and a private account. Facebook shouldn't be used by

younger generations as many people
you don't know can see your post.
We all know it is horrible to be
bullied so why should you bully over
the internet.

We shall be discussing more about safety
at another pupil voice session.
